Rely on a trusted partner to make the right strategic decisions with Ideal Health IT. **Reduce risk. Deliver results. Choose Ideal Health IT.**

Health IT Consulting Services

Healthcare organizations are facing major changes to the delivery landscape. Changes are affecting every component of the organization including how you deliver care. Healthcare reform, ARRA, and other key initiatives are driving Health IT adoption as never before. The health IT programs are in many cases transforming the healthcare enterprise and how clinical providers perform their job. Many organizations are consumed by the process of organizing, planning, prioritizing and delivering on these key initiatives. Many organizations feel pressured to rush the implementation project without carefully analyzing all of the factors that makes these programs a success.

Ideal Health IT delivers exclusively into the healthcare industry to serve your needs. We recruit skilled professionals and complement their own deep industry and functional experience with our proven methodology and best practices. Our consultants work with you to understand your organizational needs and deliver health IT consulting services that afford predictable and repeatable success. Ideal Health IT Consulting Services include:

- Business case development
- Enterprise strategy and roadmap development
- Enterprise architecture and design
- Clinical Informatics and role development
- Enterprise deployment strategy
- Governance design and leadership
- Interoperability and information sharing policy
- Privacy and security
- Reporting and compliance
