New technology makes it harder still. Access the right resources, with the right experience, on-demand, with your partner, Ideal Health IT. **Reduce risk. Deliver results. Choose Ideal Health IT.**

### Staffing Services for Clinical & IT Operations Resources

Healthcare organizations are facing an ever increasing skill shortage of qualified, educated and trained resources. New roles are emerging as old one dramatically change or disappear further compounding the need for current and relevant clinical informatics experience. Your organization is continually faced with role modification and evolving training to understand and leverage new technologies.

Ideal Health IT can help you deliver successful clinical and IT operations across your enterprise. Our expert clinical and IT consultants understand how important it is to meet clinical, operational and technical objectives to meet your operational success. We recruit, train and manage a large pool of healthcare technology consultants. As an on-demand service we provide consulting resources with the following disciplines:

- Application support and optimization
- Service delivery, service management (ITIL)
- Clinical IT operations specialists
- IT infrastructure and data management
- Integration and interoperability experts
- Clinical informaticists
- Interim IT and clinical informatics management
- On-site mentoring in multiple disciplines

### Individual Pathways

At Ideal Health IT, we recognize that each and every client is unique. Our goal is to support you through the complexities of business change by helping to select and chart clinical and technical pathways that match your individual needs and circumstances. By focusing exclusively on the health information technology market, we understand the challenges you face. We bring a client-centric approach, coupled with verified best practices, to help you through these complex changes and we work closely with you to build a sustainable model for aligning change with strategic objectives.
